ANAS ALI

REACT JS DEVELOPER

I am a reliable and friendly person who enjoys learning new web technologies. I am quick to learn and want to improve my skills by working with my seniors. My main goal is to become a great full-stack developer.

SKILLS

React JS

JavaScript

CSS

HTML

Bootstrap

Git

Tawldind Css

KEY SKILLS

- Responsive Web Design
- Front-end Web Design
- Website UI Designing

LANGUAGE

- English
- Urdu

EXPERIENCE

MY PROTFOLIO WEBSITE

I developed a portfolio website using React.js that features both dark and light modes. It is responsive and works well across various devices, effectively showcasing my projects and skills.

MAESTRO PIZZINI

The Maestro Pizzini website, built with React.js, has a special look and works perfectly on any device. It's easy to use, looks unique, and adapts well to phones, tablets, and computers, providing a great experience for everyone.

WEATHER WEBSITE

I built a React.js weather website for easy location based weather checks. Users could input a location, and the site would fetch real-time weather data. It was user-friendly, visually appealing, and worked seamlessly on all devices.

FLICK SOFT WEBSITE

For my initial React project, I developed a company website. organized components like Header and Footer, and designed it with clean layouts.
